High Capacity

High Security

**P**roficiency best describes Dahle's line of Small Office Shredders with their ability to get the job done quickly and easily with minimal effort. Small offices or teams of employees will benefit from the ease of use and quiet operation of these small to mid-size shredders. They're designed to shred between 100 and 400 sheets of paper per day and are perfect for destroying personnel records, client proposals or tax information.

With seven models to choose from, Dahle Small Office Shredders are built with a 9 1/2" feed opening to accommodate both letter and legal size paper with ease. This range offers two strip cut models (20304 / 20404) and five cross cut models (20314 / 20330 / 20414 / 20422 / 20430) and is able to shred to the standards of security level 2, 3, 4 or 5. All you need to do is decide what to shred. Your Dahle Small Office shredder will take care of the rest.

These machines are constructed using a wooden cabinet with swing open door.

This door hides the addition of a removable Shred Box which makes changing bags easier. This box can be easily lined with Dahle's Disposable Shred Bags and emptied or recycled when full. If you're not sure when that will be - don't worry. Your shredder will inform you through use of its visual warning indicators. Once your shredder is empty and the door is closed, it will resume normal operation.

Getting things done quickly and easily may be the strong suit of this line of shredders, but it's just the opposite of our service department. We take great pride in our extensive dealer network located throughout the U.S. and Canada. Their commitment to our products continues long after your original purchase. Not sure who to call about an issue? Then contact Dahle's Customer Service Department at (800) 995-1379 and we will take care of your problem or put you in touch with one of our representatives that can.
